SIGNS OF LIFE.....

It seems that signs hanging here and there attract as much attention as any means of spreading a chuckle.

OF NINETY-NINE caught two new ones this week. The first one pretty well fits the atmosphere of a newspaper office, but it was contributed by a local professional who should have no need for such advice. It reads:

"If you can keep calm in all this confusion, you just don't understand the situation."

99 — 99 — 99

The other sign follows in the same optimistic vein of others mentioned in Column 99. We like it:

"Wasn't the Recession Awful?"

99 — 99 — 99

But enough of signs and on to local humor. Kids sometimes have an awful cute way with words. And sometimes they get words like dictionary confused with similar ones.

Anyway, one pre-schooler had an interesting exchange with his mother this week. Let's listen in.

Pre-Schooler: Momma, how is it spelled?

Mother: What do you mean, it? Pre-schooler: That thing the preacher uses when he is preaching a sermon.

Mother: You mean rostrum? Let's see, R-O-S-T-R--- oh, I don't know.

Pre-schooler: That's all right, Momma. We'll look it up in the sanctuary.

99 — 99 — 99

Very interesting were two Cecopias brought into The Herald this week by Wally Short, 15, son of Mr. and Mrs. J. B. Short, 706 N. Crockett.

The two centipede-like green creatures were about three inches long, one inch in diameter and decorated with some colorful horn-like obstructions along their sides. The horns were in yellow, blue and orange.

Wally's father told us they had found five of the insects which will become big moths.

The Cecopias (correct name furnished by the county agent's office) were found on the branches of peach and plum trees in the Short's yard.

From their size, it looked like the early-stage moths might have stored away plenty of peach and plum juice.

99 — 99 — 99

Do you know any anecdotes you would like to share with your friends and neighbors? If so, please pass them on to Column 99, in care of The Herald.

Some newspapers can pay money for contributions. If it is all right though, we'll just share a good laugh with you over your jokes.

Methodists Approve \$98,000 Buildings

Sub-contracts probably will be let next week for construction of a new educational building and basement remodeling for the First Methodist Church, Cameron.

Church officials said that a \$98,000 building project will get underway when construction begins on the \$63,944 educational building.

Other church plans include construction of a \$26,000 parsonage on a site yet to be selected by church building committeemen.

Approval Sunday

Final approval for the First Methodist project came at a congregation quarterly meeting Sunday night.

Remodeling plans for the church basement will provide for classroom space.

The auditorium-education structure will be built on the lot north and behind the church sanctuary.

It will be 52 x 103 feet and constructed of yellow brick outside in the same style of the sanctuary. The interior of the structure will be of conventional design.

Plans include provision for an auditorium to seat 300, a stage, lounges, two classrooms and a kitchen. The congregation is using the basement of the church for church social functions.

Fire-Proof Construction

The one-story auditorium building will be fire proof in steel, concrete and brick construction.

General contractor for the project is R. R. Jones, Jr., of Waco, whose low bid was approved last week. Officials said sub-contracts for the auditorium and basement jobs will be opened next week.

The auditorium will be air-conditioned, officials noted.

E. A. Perrin is chairman of the contribution and planning committees. Mrs. W. A. Bonds is parsonage chairman.

Rev. Cobb Shows Rotarians Slides Of Nepal Trip

The Cameron Rotary Club May 28 saw a series of slides on the Rev. Gerald R. Cobb's historic trip to Nepal presented by the minister. He was introduced by Wayne Wieser.

In a narrative explaining the pictures, Rev. Cobb described his flight from New York's Idlewild Airport with 82 farm animals to New Delhi, India, then on by truck to Katmandoo, capital of the tiny, land-locked country.

The pictures showed the truck route taken by Rev. Cobb on his pilgrimage to Nepal. The pictures showed trucks' crossing of the Ganges River on bamboo boats.

Rev. Cobb told Rotarians that Indian people have a "why-hurry" philosophy that anyone visiting the country must accept.

He described experiences of careening down Indian roads with the truck drivers playing "chicken" and looking down 5,000-foot deep gorges in crossing Nepalese mountains.

The colored slides also showed studies of Indian natives that Rev. Cobb said "recorded the tranquil beauty of the people."

He said general business is on the agenda. The Milam FB has 18 directors.

Cameron and Buckholts Girl Scouts are both under the North Milam County United Fund. Money received for scouts was used to train leaders and helpers, not only in their troops during the year, but also in camping skills which were passed on to the girls during last week's outing.

"We know that Cameron and Buckholts are proud of their Girl Scouts and the fine work they are doing," Mrs. Williams said. She added "It is through the generosity of North Milam Countians that these leaders can be trained to help all girls in Cameron and Buckholts interested in scouting."

Camp Praised

Miss Meyer of Austin and Mrs. Patterson of Brenham, Girl Scout executives who visited Cameron last week had high praise for the camp work being done. Other visitors included the scouts parents who viewed closing day ceremonies.

Couple Injured In Car Collision; Hood Soldier Fined

Mr. and Mrs. Lee Holley of Texas City are being treated at St. Edwards Hospital here for injuries received in a car crash last Thursday on Highway 77.

Corp. James A. Holt of Fort Hood, driver of the other car, was sentenced in two cases Tuesday in Milam County court, and in justice court.

Holt entered a plea of guilty to a driving-while-intoxicated charge and was fined \$200 and costs, given five days in jail and a six-month suspension of his driver's license.

In justice court, he was fined \$25 and costs for driving on the wrong side of the road.

Mrs. Holley suffered a concussion and Holley, 27, suffered a splintered arm. His arm was outside the car at the time of the crash.

The Holley car was demolished while Holt's vehicle continued on down the road, state highway patrolmen said.

Trooper John Blansit said that ownership of the vehicle was traced to Holt after the collision. Blansit said Holt was arrested at Fort Hood.

Rockdale Rotarians Plan Feed Friday

The Rockdale Rotary Club Friday night will entertain dignitaries attending the International Rotary Convention at Dallas.

The Rotarians will be entertained on the Gaither ranch near Rockdale, officials said. Steaks will be barbecued. A number of Cameron Rotarians plan to attend.

Four Measures

The Council also:

ONE—Turned down a request for \$3,000 to purchase a tractor for the city street department.

TWO—Approved a \$500 grant to the city fire department for expenses to the state fireman's convention.

THREE—Authorized Hefft to buy necessary equipment for hydrants along US 77.

FOUR—Scheduled a 10 a.m. Thursday administrative meeting to discuss employee salaries in various city departments.

Marvin Bowers, Joe J. Rady consultant, reported that the city filtration plant was functioning smoothly. He said that only three minor adjustments would be necessary for continued efficient operation of the new plant.

The city would be near state-approved water when covers for settling basins are emplaced, he said.

Asks For SW Line Dr. David Shapiro, city health officer, appealed for a trunkline to southwest Cameron following discussion of sewerline project on East Gillis St.

The City Council Tuesday night discussed plans clearing the way for widening of US 77-SH 36 in Cameron and approved plans for a sewer trunkline in Terrell Heights.

Mayor Bassel Wilson also called for a city-wide clean up, paint-up campaign to begin soon in Cameron. He said that a recent meeting of the industrial planning board showed that a clean-up drive would meet a requirement of industry seeking location sites.

In other key action Tuesday, the council passed into law the city's first dog ordinance that will require annual rabies vaccinations and licensing for dogs.

Chief Maynard Byers said the measure will give him authority to round up stray dogs in Cameron. He said that dozens of unclaimed animals are roaming the city.

City fathers heard Water Supt. Alvin Hefft report that one new hydrant and a fitting will be needed to meet requirements in moving waterlines along the proposed widening route on US 77 in Cameron.

Meet With State The council met with Cameron utility managers, the state highway department and County Judge Charles C. Smith, Jr., May 21 to outline requirements for getting the project underway.

Officials said that a September 17 letting date for construction bids was likely. It would require that much time to clear the right-of-way of utility poles and lines before road construction can begin, they said.

The city will move three hydrants during the preparation stage.

In approving the Terrell Heights sewerline, city officials will add a trunkline which will be linked later with another trunkline in northeast Cameron, officials said.

Public Works Supt. W. D. Bigbee estimated the project will cost about \$4,900.

In other action the council approved two ordinances:

1. To empower Mayor Wilson to make right-of-way agreements with west Cameron property owners for a proposed farm-to-market road from Cameron to Marak.

2. To accept a blanket maintenance agreement with the state. The state will then maintain all county, state and national highways going through Cameron.

Four Measures

The Council also:

ONE—Turned down a request for \$3,000 to purchase a tractor for the city street department.

TWO—Approved a \$500 grant to the city fire department for expenses to the state fireman's convention.

THREE—Authorized Hefft to buy necessary equipment for hydrants along US 77.

The city would be near state-approved water when covers for settling basins are emplaced, he said.

Asks For SW Line Dr. David Shapiro, city health officer, appealed for a trunkline to southwest Cameron following discussion of sewerline project on East Gillis St.

Bigbee told The Herald pick-up service during the proposed clean-up campaign would follow about the same schedule of city garbage and trash pickup. He said that trucks would not come back if tree limbs and trash was not out when the trucks came by.

Agent Stresses Hog Care During Summer Months

By Robert W. Hoermann
Ass't County Agent

Hog care during the summer months was stressed this week to 4-H Club members having Sears gilts.

Emphasis was placed on having the right type of shade and cooling facilities for the gilts. The shade should be high enough off the ground to permit wind to move

freely underneath. Sprinkler nozzles from a cotton sprayer may be connected by the use of a hose or pipe to the water line and used to sprinkle the gilts to keep them cool.

Gilts being grown for brood sows will be more productive if they graze a green pasture. Pasture is a cheap source of vitamin A, and will give the gilt needed exercise. The exercise and vitamins will help the gilt develop strong legs.

A high digestible protein diet is required by the gilts for full body development and growth. Tankage or hog supplement are high in digestible protein, which fed in combination with corn and pasture, help develop high producing sows.

County Agent Lists Local Insect Control

COUNTY AGENT NOTES

J. D. Moore, County Agent

Mrs. Will Lake got good control of the cucumber beetles damaging the cantaloupe crop by dusting with a commercial dust containing BHC, lindane and a copper compound. The BHC and lindane control the insects while the copper dust protects the plants against diseases.

Mr. Buddie Yager of the San Gabriel community, reports good control of cotton insects by using Heptachlor as a spray. He has put on 3 applications and plans to use a fourth application by the first week in June.

Aphids In Maize

The small grayish insects occurring in most all maize fields are plant lice. They are found mostly in the growing terminal shoot of the maize stalk. V. L. Angell, the Vrazel Brothers and Mr. Aubrey Hightower, are poisoning their maize with one pint of Parathion per acre as a spray. This material can be applied as a dust. Mr. Angell used the airplane to speed up the job. Also, this method leaves his tractors free for other needed farm jobs.

Bill Whitaker and Son have been moving their early squash to major markets. They have already topped out one field of early tomatoes. Mr. Whitaker and Son have an interesting tomato variety test. In one field they have the new A&M College strain cross that looks very good, a planting of the Red Chief variety and a planting of the Bouquet variety. These tomato varieties represent the very excellent work of our research workers at the Texas A&M System Experiment Station and are worthy of note by truck farmers.

Brush Control

Dr. Darrow of the Range Department, Texas A&M College and the

local county agent put down a demonstration using Fenuron pellets to control post oak, black jack and winged elm growing on sandy soils. One demonstration using different rates of the pellets were at the Theo Allen place east of Cameron on the Hanover road. Another demonstration was set up on the Milano highway.

These pellets basically are hormone derivatives and do not present the drift hazard as in the case of 2,4,5-T. The cost of the pellets will run about \$16 per acre.

Breeding Swine

Henry Richter, local Duroc breeder, sold young boars to the following counties: Falls, Williamson, Liberty, Harrison and Upshur counties. Most recent female sales out of the county were six gilts sold to the 4-H Club program in Bastrop county. Mr. Richter sold a number of head of breeding swine to local farms in Milam county.

Fly Control

The regular "house fly" is a continuous problem around most all farms each year. This year is no exception. A number of our farm families are getting good results using commercial fly baits. The best fly baits are made of malathion. This material, when used according to instructions on the container, give good fly kill. Always to be remembered, is the saying, "that an ounce of prevention is worth a pound of cure." Removal of breeding places such as manure piles, etc., will do much to keep down the fly population.

Cattle consignments totaled 717 Thursday at Cameron Livestock Auction as 190 sellers brought animals for consignment.

County Rains Boost Sub-Surface Moisture County Agent Says

Rains varying from less than one-half inch in West Milam to two and one-half inches east of Cameron built up strong sub-soil moisture last week.

J. D. Moore, county agent, said that all crops have made good growth.

He noted that a large acreage of oats were cut for hay while other oats for seed are rapidly ripening. Some seed oats are ready for combining.

Moore estimated that 50 percent of Milam oat acreage will be cut for hay.

Rains were equally welcome to the corn crop. Some corn is in the tasseling stage. Plant lice infestation has hit most maize, Moore said. He noted some poisoning for control while rain and other weather conditions may check corn aphids.

The county agent said the cotton crop looks better and urged farmers to continue poison applications until mid-June to protect late-planted cotton.

Rains also benefited temporary and permanent pastures as all livestock continued strong.

Truck crops made good growth this week, he concluded.

Experts Predict Farm Exodus To City Will Decline

COLLEGE STATION—A Texas A&M agricultural economist has predicted that Texas exodus from the farm to the city will be slower in the future.

Dr. Robert R. Skrabanek says that it is highly probable that the farm population will continue to decline but at a much slower rate than the 26.6 percent — about 369,000 — who have moved to the city from 1950-57.

In the survey made by Texas A & M in cooperation with the USDA, Dr. Skrabanek said also that the farm population declined more slowly in Texas than in nearby Arkansas, Oklahoma, and Louisiana where the loss was 30.2 percent during the same period.

However, compared with the nationwide farm to city movement, Texas' 26.6 percent has been much higher than the national average of 18.6 percent.

The Texas farm population — 1,081,000 — made up 11.1 percent of the state's population in 1957, with five out of every 100 farm residents in the U. S. residing in Texas.

There was much migration to and from farms during the 1950-57 survey period, Dr. Skrabanek added. An estimated 815,000 moved from Texas farms during that period, but at the same time 314,000 moved to farms.

There were an estimated 199,000 births among farm population during the period and an estimated 67,000 deaths.

The migration from farms was heavier in areas of prolonged drought than in areas where the drought was less serious.

Bag Worm Control

It is now time to apply control measures to ornamental plants infested with bag worms. The worms are now small and can be effectively controlled, says C. F. Garner, extension entomologist. He suggests that a copy of L-199, Texas Guide for Controlling Insects on Ornamental Plants be obtained from the local county agent.

Farm Safety

Haying and early harvests increase the chances for farm accidents. While Farm Safety Week will not be observed until July, the Texas Farm and Ranch Safety Council reminds that the safe family is one that observes farm safety week 52 weeks out of the year. "Farm it safe by avoiding mistakes," says the Council.

City Building Continues...

It appears that Cameron's building program will continue into 1958.

Recent announcement of availability of \$87,750 for Cameron's long-awaited armory means that building is on the upbeat again in Cameron.

The armory has been abuilding for several years. Chamber and civic leaders some years ago concluded a successful drive to provide the 20-acre site for the Milam Guard unit.

Then the present structure was built. The new armory will be 108 by 116 feet in size and house Battery C, 649th Anti-Aircraft Artillery Battalion.

It will be another welcome addition to Cameron's growing list of new buildings. And it will represent a confident investment in the future of the city.

It takes a good - sized unit to use the facilities being constructed for the Milam Guard unit. Cameron has that 80-man unit. And it would seem that prospects for growth would be considered in final approval of \$87,750 for construction of a new armory.

It is safe to assume that Cameron's Guard unit will need room to grow and Cameron will have an additional meeting place for community functions.

All told, the addition of the new armory will be a handsome one for Cameron. It means much to Cameron and Milam County to get the facilities that are conducive to continued growth.

THE LITTLE RIVER PHILOSOPHER

Sage Shares Ike's Problems
In Solving Financial Cares

Dear editor:

Everybody in the country has been wondering when things are going back to normal, and I wish to let you know I have now found an unmistakable sign that normal times are about here.

Last night I read an article in a newspaper which I picked up in town earlier in the day.... it was blowing along the street and any time a man can help beautify the town and get a free newspaper at the same time he has to be mighty lazy not to do it.... that convinces me things are now approaching normal.

According to this article, the Secretary of Commerce in Washington said he saw "some fairly rosy prospects ahead for the economy." He said the "economic picture will be much brighter later this year. Employment has been rising. Business indicators are a bit better, and a spirit of revived confidence is beginning to appear."

In the same article, the Director of the Budget said beginning July 1 the government will go in the red about two billion dollars.

If this isn't prosperity.... business picking up and the country going further in debt.... I've never seen it.

What this proves is that in the final analysis there's nothing wrong with installment buying. It's only installment paying that keeps a man's nose to the grindstone.

Personally, I don't know whether the recession is disappearing or not, probably it is, and that suits me fine, but what I have decided after considerable thought is that economics is like the human body. A man can get sick occasionally for no reason at all, and while the doctors stand around stroking their chins and calculating what's wrong with him, he suddenly starts to get better and nobody knows for sure what caused him to get sick in the first

place and what got him well, whether it was the medicine or just the natural course of events or the thought of a long hospital bill.

There may be people in this country who really know what causes a recession and what cures it, but if there are they're sure keeping quiet.

Yours faithfully,
J. A.

Capitol Report

Texans To Decide On Election Procedure

By Vern Sanford
Texas Press Association

AUSTIN—During coming months Texans will ponder and argue the wisdom of adopting sweeping changes in election procedures.

If adopted, the changes recommended by Gov. Price Daniel would alter campaign procedures more drastically than anything since the Terrell election law became effective over a half century ago.

Governor Daniel's proposals are (1) to abolish precinct conventions and, instead, elect county convention delegates at the first primary and (2) to hold primaries in May and June instead of July and August.

Such ideas are grist for mills that grind slowly. They'll be debated, pro and con, at the party conventions this summer and, probably, again by the Legislature next year.

At the June 9 meeting of the State Democratic Executive Committee, the resolutions sub-committee will recommend support of the changes. Sub-committee members announced they agreed with the governor that a direct primary vote in the precincts would insure wider participation and do away with the "ugly contests, rump delegations and bitterness" that have characterized Texas party politics all the way to the national convention.

Support from the State Committee was to be expected since a majority of its members are friendly to Governor Daniel.

Opposition is anticipated, down the line, from people who regularly participate in precinct meetings. They -- or at least some of them -- contend the neighborhood gatherings provide the citizenry with a sort of democratic "town hall" experience. Others object to earlier elections on the grounds they would prolong the "lame duck" period for defeated incumbents.

Defenders of the anti-precinct convention plan declare it's the next logical step in a long-range trend. Before the adoption of the Terrell election law, state officials were nominated by political parties at their state conventions. Beginning in 1907 voters were given a more direct say by the use of one primary and a convention vote if no candidate received a primary majority. In 1913 this was amended to provide the present two-primary system.

"Code" Forthcoming

SDEC's resolutions committee also promised to meet DOT's challenge for a "code of ethics" for conducting party conventions.

The Committee said it did not feel privileged to dictate procedures from the state level, to precinct and county officials. "The overwhelming majority of whom can be trusted to function.... with the highest ethical considerations." But it said it would recommend a "declaration of principles which will insure.... majority determination" at state conventions. "A 'fair play code' has been a rallying cry for the liberal Democrats of Texas led by Mrs. Frankie Randolph of Houston.

Anti-Trust Inquiry

When a city or county needing supplies or equipment gets sealed bids identical to the fraction of a cent, there's a possibility the bidders got together beforehand and agreed on a jacked-up price.

Atty. Gen. Will Wilson says that his office has had several reports

of identical bidding. He is making an intensive investigation. Suits will be filed after evidence is complete, probably within six to eight weeks.

Contracts under study involve sales of electric transformers, chlorine for swimming pools, and lime and oyster shell for street topping.

A conspiracy among bidders to raise prices can cost taxpayers in the multi-millions, Wilson commented.

Holes In The Net?

With the state facing a sizable deficit net year, the Senate general investigating committee is seeking to discover if the state is getting all the tax money due it. Members of the State Comptroller's Department, chief collecting agency, told the committee, in effect, that the collecting net was a little skimpy for the potential catch.

They're way behind in their audits of large companies, said Houston area supervisor Harvey J. McKinzie. Reason, he said, is that low state salaries have caused the staff to dwindle from 14 in 1948 to 5 at present.

An audit, said McKinzie, sometimes results in recovery of large sums of additional tax money.

Boudreaux Awarded \$500 In Contest

Edward Boudreaux of Houston received a \$500 award for his essay "The Constitution of the United States of America, and Its Bill of Rights - A Bulwark of Liberty." The essay contest was sponsored by Paul Carrington Chapter No. 5, Texas Society of the Sons of the American Revolution.

Boudreaux is the grandson of Mrs. Joe Hibner and a nephew of Mrs. E. L. Wied. A 1958 graduate of Lamar High School in Houston, he will enter the University of Texas in the fall.

Local Reservists Leave Saturday For Army Camp

Beginning Saturday several Milam County citizens will exchange their civilian clothes for khaki and their regular jobs for two weeks of Army life.

Reservists, scheduled to depart Saturday include Lt. Emory Crump, SP2 Henry Coon, Pfc. Valente Valverde, Pfc. John T. Alford from Rockdale, and SP2 Albert N. Burnett, SP3 Robert Miller and Pvt. Bobby Deelman from Cameron and Milano.

All are members of Battery A, 343d Field Artillery Battalion, 90th Infantry Division, located in Caldwell, and will participate in the annual two-week summer field training at Fort Polk, Louisiana. At the end of that time they will return as civilians.

"Annual field training is one of the most important phases of the Army Reserve Program," declared Captain Charles K. Matejowski, Battery A Commander. "To have a reserve force available for duty in case of a national emergency requires continuous training. The two-week period is the high point of the training program."

"Employers of reservists can make an important contribution to the success of this reserve training by arranging vacation schedules and establishing personnel policies that will encourage the individual reservist to attend camp."

Story Of Cameron Business Leadership

Duncum Motors Headquarters For Auto Air Conditioning

Auto air conditioning headquarters in Cameron is Duncum Motors, corner of West First St. & Travis, Owner Coleman Duncum proudly announces.

The Cameron Plymouth-DeSoto offers top quality lines of auto air conditioners in Frigi-King and Parkomat.

And service and excellent installation are the by-word at Duncum's. One-day installation service means fast change-over to cool refrigerated driving comfort, Duncum points out.

His air-conditioning service is only a part of a wide range of services and goods available at his car agency.

Duncum has a well-staffed operation to meet the service and sales requirements in new Plymouths and DeSotos. Mercury out-board motors and auto air conditioning.

But the newest feature of Duncum's operation is the installation of a complete department of Inland Radiator equipment, including the new Flo-Tester.

The new machine is used to determine whether a radiator is plugged, Duncum points out.

Measures Flow

"It measures exactly the gallons-per-minute flow of water through the radiator," Duncum says. "The extent of plugging is quickly determined and immediate repairs can prevent costly engine damage later on."

Duncum extends a cordial welcome to the public to get radiator repair and service as well as regular auto general repair at his shop.

"Our combined 45 years in auto experience qualifies us to give the motorist complete service whether in sales or service," Duncum points out.

Duncum now has a used car lot at Main and S. Travis where he keeps a stock of fine used cars.

Both his new and used car sales feature fair dealing with emphasis on "serving what we sell."

"We are confident that our customers want to know that their

new automobile will be taken care of long after they purchase it," Duncum says. "We provide competent service work."

Well Stocked

Duncum's operation includes a well-stocked line of parts for both Plymouth and DeSoto.

And he specializes in the sale of Mercury outboard motors and air condition units for cars. "Air conditioning for autos is one of our specialties," he emphasizes.

Duncum is active in several civic and church activities. He is a member of the Kiwanis Club, former president of the Cameron Saddle Club and a member of the Church of Christ.

He and Mrs. Duncum reside at 1910 N. Jackson. They have two children, John Morris, 20, a junior at Abilene Christian College, and Mary Alice, a sophomore at Yoe High School.

"We invite our customers to ask about our radiator service. We recently expanded the department to the most complete service of its kind in Cameron," Duncum says.

First-Rate Bill Awaits Movie Fan At City Theatres

"Let's go to the movies."

That's the theme Billy Peck, manager of the Milam and 77 Drive-In theatres, is bringing to the forefront at the two Cameron theatres.

And he offers some good reasons why movies are better than ever at both movie houses in Cameron.

The 77 Drive-In opened this spring with a series of first rate pictures while the Milam Theatre operates the year-round with top notch showings from all major film production companies.

At the Milam Theatre Peck emphasizes he is showing first-run pictures that a quality-minded public is calling for.

This week's bill includes such fine pictures as "Tarnished Angels", "Deep Six" and "Pursuit of the Graf Spee" among others at the downtown theatre.

These are a good example of a week's run at the Milam, Peck says.

The Milam boasts comfortable seating capacity for several hundred viewers and delicious soft drinks, candy and popcorn in the lobby refreshment booth.

The 77 Drive-In theatre screen has been completely rebuilt in the past year and speaker facilities are much improved this summer, Peck says.

Top on the 77 bill this week is an area premiere showing of "Domino Kid" along with "Hired Gun" two thrilling western films.

The 77 is on the Waco Highway. You can be sure that better movies are on tap at the Milam, Peck continues.

The personnel and management of both theatres strive to give our customers the utmost in movie entertainment for their money, Peck adds.

"Be sure to see one of these movies coming up," Peck says. "They will prove that movies are better than ever."

Owls 4, Cats 2 In Friday Game, Bauer Takes Win

The Owls behind pitcher Earnest Bauer sent the Cats down to a 4 to 2 loss, in the Babe Ruth League Friday.

Bauer held the Cats to 2 hits, one each by Bobby Griswold and Herb Thweatt, however, he walked five men and was behind 2 to 0 until the fifth inning when Don Warren walked and later scored in front of Earl McGoldrick.

Bauer himself scored the winning run and Iven Vogelsang added one for insurance.

Wayne Puckett, the Owls third baseman was the real hero of the game, in the 7th inning he doubled hard to right field and 2 out to drive in Bauer and Vogelsang.

Bob Dymkie was the losing pitcher, his first loss of the young season against one win. Herb Thweatt started for the Cats and was relieved by southpaw Chris Gay in the 4th inning, and then Dymkie took over.

The Owls got five hits with Bauer getting two of them and worked Cat pitchers for six walks. Leftfielder Sammy Morgan and Chris Gay scored the Cat runs.

Former Rockdallians will meet Sunday at Rockdale Fair Park according to Mrs. R. E. Crane, homecoming secretary. A large crowd is expected from all over Texas for the all day event.

Tom Murray's Column

HOUSTON and Dallas are at it again!

What Houston has, Dallas craves or vice versa, Houstonians have always coveted the Cotton Bowl and Dallas has been jealous of Houston's success with the Southwest Conference basketball tournament.

Texas' two largest cities are about as athletically amiable as the University of Texas and Texas A&M.

Houston blasted off with publicity designed to acquire entry to major league baseball. Dallas followed suit, in the company of brawling neighbor Fort Worth.

Lou Viscusi, manager of ageless Willie Pep, put Houston on the boxing map with Lightweight Champ Joe Brown, Roy Harris and Cleve Williams.

But wait! Dallas has hired world famous con-man, Jack Kearns, to steal that thunder with a proposed Brown-Ken Lane title brawl at the Cotton Bowl.

Despite denials from Houston, Dallas sports writers say Big-D, not the Bayou Sportsdod, will put Texas into major sports spotlight.

Then there were the Dallas Texans . . .

RAYMOND JONES, who used to stamp opposing defenses as a great Texas fullback in the Bobby Layne era, yet applies the stamp. He is Livingston's gentleman postmaster . . . Maury Lee Crow, outstanding Baylor frosh end out of Giddings, is working at Tennessee's Gass' La Porte plant. That is Stone (Red) Wells's company. He's the Baylor athletic advisor and Houston "television" star . . .

The Texas Aggies may have signed the best defensive back in the state, acquiring Cameron Guy Dillon's signature. He averaged 12 tackles and 7.4 yards per game with his 195-pound chassis . . .

Clear Creek's George Carlisle receiving much North Texas publicity from his selection to coach Texas South school basketball all-stars . . . Sports Publicity Director Jim Brock can be credited with New Boston Sid Garton's unlikely choice of TCU. He talked him out of going to a more famous track school . . .

Louis Davis, famous a foundation calculated to pull Huntsville High from

the depths, turned down an opportunity to join ex-Baylor tutor Bob Barfield at Pasadena . . . Bob Nemir, rugged Rice ball-carrier of the '40s, a successful Navasota businessman . . . Arved White, 6-6 Texas U basketball out of Houston Lamar, is a younger brother of the Longhorns Vilbry White, 1949 All-SWC shooter, who high schooled at Prairie Lea. Vilbry is now a Houston dentist.
